### Objectives & Content

This course offers students the opportunity to explore key topics in business administration and is specifically designed to support the development of their master's thesis. It aims to promote independent working skills and strengthen academic competence.

Building on the content of previous courses in the curriculum, students are guided in independently developing and structuring their master's thesis. The course accompanies the entire academic writing process, starting with the generation of ideas and concluding with the written elaboration of the thesis.

Students are expected to carry out in-depth literature research and analysis, identify relevant research gaps, and select appropriate theoretical frameworks and research methods. The course addresses all essential phases of an academic research project:

- Structure of the thesis
- Literature review
- Specification of research gap
- Research question definition
- Development of a conceptual framework
- Methodology
- Presentation of the results
- Discussion
- Writing up the project

## Course Policies

The course has “prüfungsimmanenten Charakter”. Attendance is compulsory throughout the semester. Absence from two course units is possible. A course unit is a 90-minute session. Further absences will automatically result in a “fail” grade. Attendance is compulsory during assessment (e.g. presentations etc.).

Both the course and the assessment are held in English. During the course active participation is required during all lessons.

Students wishing to take this course must register via u:find/u:space (without points) during the registration period.

Registered students who, for whatever reason, are not able to take the course must de-register electronically, otherwise they are going to be marked 5 (failed).

---

*It is absolutely essential that all registered students attend the first session on 9<sup>th</sup> October 2025 (Introduction). As failure to do so will result in their exclusion from the course.*

---

## Course Structure

Please see the course schedule on u:find for the seminar rooms.

Please plan accordingly, all other information is in Moodle.
